This listing of claims will replace all prior versions, and listings, of claims in the application:

## LISTING OF CLAIMS

1. (currently amended) A method for providing a communication medium over a wide area network, including the Internet, for the primary purpose of providing a financial modeling and counseling system comprising:

providing financial modeling in a web-based environment, wherein the financial modeling includes a profile of a user;

providing to the user automated financial coaching in a web-based environment based on the financial modeling and reflecting the profile, wherein the customized financial coaching includes suggestions for changes to a current financial portfolio of the user, wherein the suggestions are presented in a natural language format, and wherein the suggestions include financial products and recommended securities for the user to purchase;

displaying to [[a]] the user a plurality of communication options with a live advisor in said web-based [[page]] environment;

enabling a communication medium between said user and [[a]] the live advisor based on the user selected communication option whereby said live advisor may provide live financial coaching such that said user is assisted in achieving financial goals and optimizing long-term goals; and

establishing a communication between said user and said live advisor transmitting streaming live video or still video clips upon the user's selection.

2. [[3.]] (currently amended) The method of claim 1 [[2]] further comprising:

establishing an electronic mail communication between said user and [an] said live advisor utilizing the Internet upon said user's selection of the electronic mail option.

3. [[4.]] (currently amended) The method of claim 1 [[2]] further comprising:

establishing an online chat communication between said user and said live advisor utilizing the Internet upon the user's selection of the online chat option.

4. ~~[[5.]]~~ (currently amended) The method of claim 1 ~~[[2]]~~ further comprising:  
establishing a voice communication between said user and said live advisor transmitting  
streaming live audio using said Internet upon the user's selection of the voice  
option.

5. ~~[[6.]]~~ (currently amended) The method of claim 1 ~~[[2]]~~ further comprising:  
establishing a voice communication between said user and said live advisor using the  
telephone and utilizing the Internet upon the user's selection of the talk option.

6. ~~[[7.]]~~ (canceled)

7. ~~[[8.]]~~ (canceled)

8. (canceled)

9. (currently amended) A communication system over a wide area network, including the  
Internet, for the primary purpose of providing a financial modeling and counseling system  
comprising:

an automated coaching engine providing financial coaching and financial modeling to a  
user in a web-based environment coupled to the Internet, wherein the financial  
coaching is based on the financial modeling, wherein the financial coaching  
includes suggestions for changes to a current financial portfolio of the user,  
wherein the suggestions are presented in a natural language format, and wherein  
the suggestions include financial products and recommended securities for the  
user to purchase;

a web server providing a variety of communication options to ~~[[a]]~~ the user, coupled to  
the Internet;

a communication center coupled to the Internet, enabling said user to communicate with a  
live advisor using a communication medium selected by the user whereby said
